---

Dear readers,

Welcome to the first edition of IIS Voice Volume 1 (2023-2024), the IIS-DSO magazine that celebrates literary and artistic talent within our campus. In this edition, students from Grade 1-10 have vibrantly showcased a range of poetry and prose focused on many creative themes. Keep reading as we unravel more stories in multiple languages!

The following IIS-DSO staff and students have been instrumental in bringing out the magazine:

### **Screening Committee (Students)**

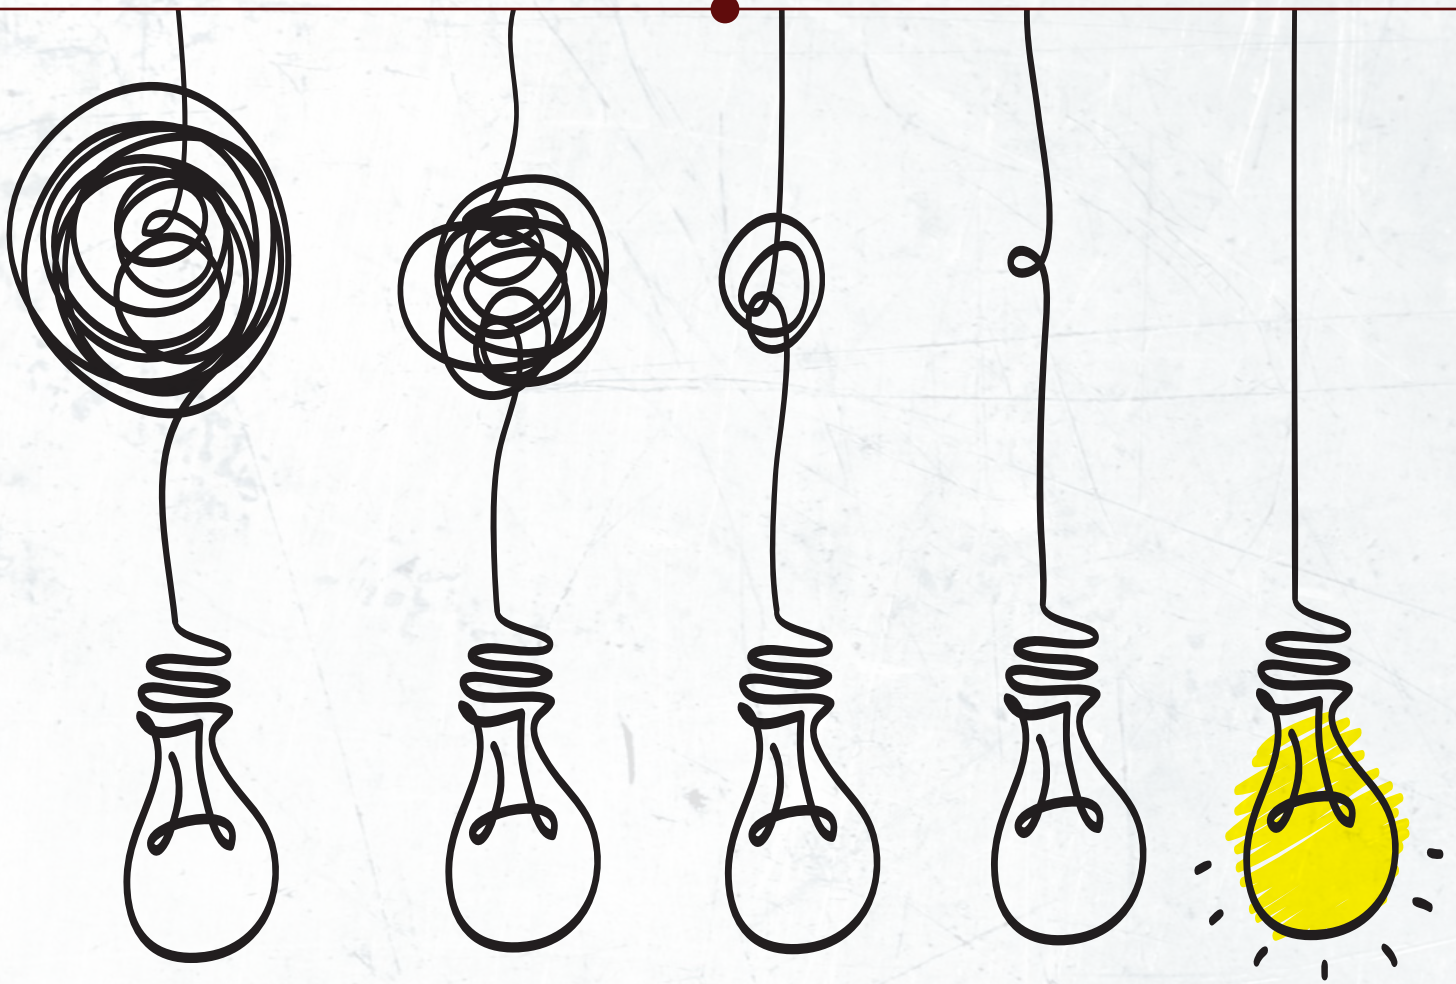

1. Adaline Rose Colaco (5F-Language Council)
2. Tejana Kavya Gunti (3A-Language Council)
3. Deetya Murali Kattoor (5A-Reading Council)

# Storytelling - Moral Value

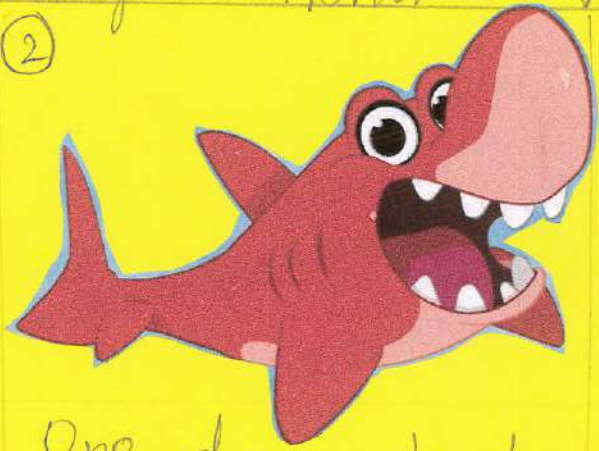

1B

①

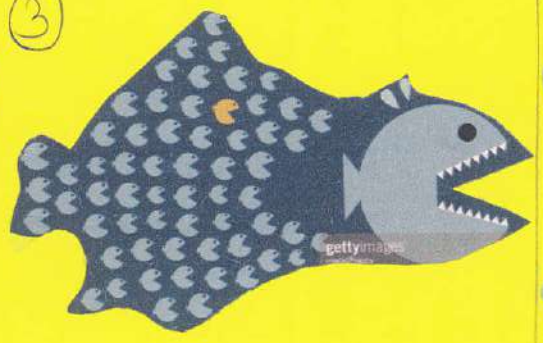

Once there lived few fishes. They were good friends.

②

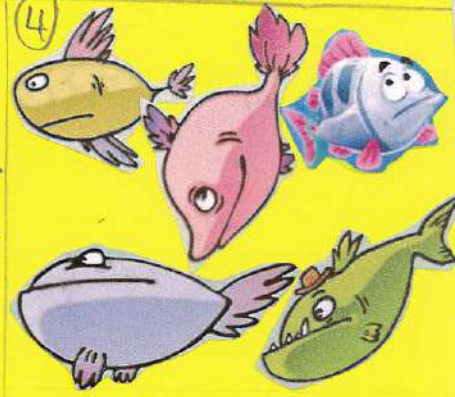

One day shark attacked into their area.

③

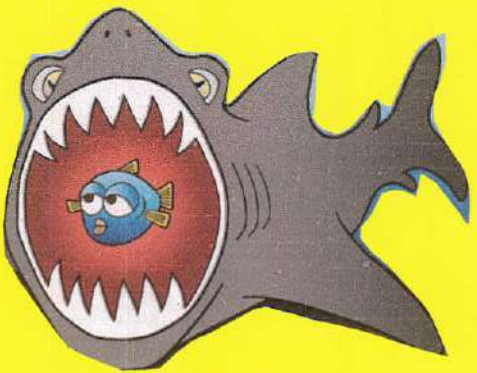

They gathered and scared the shark away.

④

One day they all fought with each other.

⑤

Shark took advantage and ate them one by one.

Moral : United we stand divided we fall.

# Beginning

Once upon a time there was a rabbit and a tortoise they were very good friends.

The rabbit always boasts that he could run faster than the tortoise.

# GEORGE'S

## MARVELLOUS MEDICINE

### BY ROALD DAHL

**ORIGINAL ENDING** - She sees the cup of medicine in George's hand and erroneously mistakes it for tea.

Much to his ↑ and Mrs. Kranky's horror, and Mr. Kranky's delight, she drinks the entire cup and shrinks so much that she vanishes completely. At first, Mrs. Kranky is shocked and distraught about her mother's sudden and very strange disappearance, but soon accepts that she was becoming a nuisance anyway. George is left to think about the implications of his actions, feeling as though they had granted him access to the edge of a magic world.

**My ENDING** - She would grow to the height of tall buildings. She ~~made~~<sup>made</sup> it look like human beings were small ants. Human beings begged for Grandma's mercy but she stamped on them. All the News channels came to know about Grandma, but they could not do anything because the city was in a crisis. The feeling on the ground was absolutely scary. Grandma made it feel an earthquake was going to take place, which will make the city in 2 halves.

# My Kazakhstan Adventure

## (Travelogue)

### Introduction:

Kazakhstan is a wonderful country full of surprises, and I was lucky to visit it!

### Day 1: Arrival in Kazakhstan

When I landed in Kazakhstan, I felt so excited! The airport was huge, and the people were friendly. I saw colorful signs in a language I didn't understand, but it was so cool.

### Day 2: Exploring the capital - Nur-Sultan

Nur-Sultan, the capital, was amazing! I saw a tall tower called Baiterek, and we saw other landmarks while walking around the city. The city looked modern.

### Day 3: Visiting Nature's Wonders

We went to Charyn Canyon, and it was like being on Mars! The rocks were so red and tall. It was like a dream!

### Day 4: Saying goodbyes

Narrating an event

(Memorable Event)

Liverpool's 2005 champions league final

On may 25 2005 the champions league final was played.

The wonderful match between Ac milon and Liverpool would take place in the Ataturk olympic stadium.

Liverpool and Ac milon could taste the feeling of lifting the champions league trophy once again.

The match had started Liverpool and Ac milon feast ing their eyes upon champions league trophy.

Maldini from Ac Milon scored in the 1<sup>st</sup> minute to make it 1-0 followed by the 39<sup>th</sup> and 44<sup>th</sup> minutes goal

by Crespo from ac milon to make it 3-0 Ac milon were

winning. The whistle blew for half time. Liverpool

fans were devastated. Second half started and in the 54<sup>th</sup> minute Gerard from Liverpool scored to make it 3-1. fol

lowed by a 56<sup>th</sup> minute goal by Vladimir smicer.

from Liverpool to make it 3-2 and again in the 61st minute  
scali also scored to make it 3-3. Liverpool had  
done the impossible.

It was penalty shootout. Shevchenko from AC Milan had  
to score to equalize with Liverpool <sup>and</sup> if he missed  
he would lose.

Shevchenko took the penalty and he missed. Dudek  
the goalkeeper had saved it.

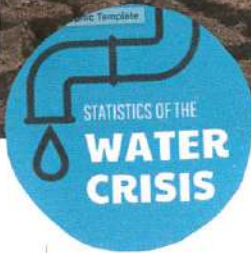

Liverpool **WON!** This is an example of never giving

My Reflections

# My Experiences working on the Integrated Project

Name: Anushree Mandar Velankar

Grade: 5 H

Gr. No.: 4748

My project is about how Artificial Intelligence can help students and teachers. AI can help us ~~learn~~ learn more efficiently and easily by using personalized teaching methods so every student can understand the topic. It also gives information on how Artificial Intelligence functions.

I think my project is a success. I have learnt a lot from it. ~~It~~ I have successfully integrated it with all the subjects, and it has improved my research skills tremendously. I did face challenges while making my project. I couldn't figure out how to integrate my ~~project~~ topic with theoretical subjects like SST. I also did not know how to present some of my ideas clearly. I overcame these challenges by using different websites and using new ideas. ~~I~~ After, doing the research I figured out ways to present my ideas ~~so~~ in a way people would be able to understand. If I were to do my project again I would do it in Microsoft Word instead of doing it in Powerpoint as it would be easier to add more information.

The most important lesson I learnt ~~whilst~~ while completing my project is to

'Never give up'. I thought about starting over or quitting but I persevered and tried to finish it. I also learnt ~~many~~ a lot of information that can help me in my future career such as, AI, computing systems and technology as these topics are used in many fields. This project taught me a lot. I hope you can learn from it too.

## Theme - True friendship

There was a boy named Guttu and a girl named Pinky. One day they were playing in their garden and they heard a dog barking they went to check why it was barking. They saw it was hurt.

They took it and bandaged its wound.

Pinky kept it and named it Bruno. But

Guttu thought it was dirty so he

thought was to get rid of it. One day

he left it in the forest. That night he

and his sister heard barking. They went

outside and saw Bruno barking at a

thief. Then Pinky said to the thief

go away before I let him attack you.

Then Guttu understood without Bruno

they would have been robbed. From

that day on they were best friends.

My Memorable event at the school IIS, DSO

3/10/23  
Tuesday

My Memorable event at IIS was me becoming Asst. House Captain for the student council. It was unexpected, see so I decided to apply to be a student council not expecting to be one. So I did my interviews and waited for the news. The next day I come to school and Maám calls me and some others and say that we have been selected to be a Student Council. I was in shock. Then we started practicing and we did our ceremony in which we got our badge, I was happy, shocked and excited all at once. It felt so good to have power and responsibility. Then our supervisor gave us duty and this is how I am what I am today.

# IMAGINE YOU FOUND A TIME MACHINE

WHERE WOULD YOU GO AND WHAT WOULD YOU DO?

If I had a time machine, I'd have three main eras to travel. To begin with, the Mesolithic Era; an ancient time where archosaurs and arthropods lived alike, for times also a land of many modern misconceptions and mistakes.

Many people misunderstood the prehistoric world and to sagely go to that time would change the way we ~~say~~ history. I also had the Precambrian Era in mind, to see the very first precursors of life itself is truly a wonder of many. To see what was only discovered by dumb luck, research and lots of speculations shows leaps of potential for what else the human race will discover.

As the universe passes on, it is up to us to know what and all that there is as it happens. That reminds me, it would be truly amazing to see ~~the~~ the start of the universe itself, how all existence came to  fruition. For such a debatable era of all happenings, it is worthwhile to have found origin of what came to be, what is, and what will have been.

In conclusion, a time machine wouldn't be so bad when used right. I'd thank all that is for multiverse theory.

Mesolithic - The age of dinosaurs - from 200 MYA to 66 MYA

PreCambrian - The first age of life on Earth

Archosaur - A type of reptilian family including dinosaurs, pterosaurs and crocodiles (Google it)

Arthropods - Insects and crustaceans

Trilobites - It was

Procurator - Predecessor

Trinitism - To have happened or to have been proffered

## An Unforgettable Day

It was my first day of school. I remember when I entered <sup>the</sup> school with full of happiness I saw many beautiful vibrant colors it was so beautiful and when I entered my class everyone was so nice and welcoming to me and I loved it. The walls were covered with drawing, posters of different subjects it was so beautiful. I can't stop thinking about it till now and everyone wants to be my friend. The first bell rang and everyone went back to their seat the teacher came in the class we all ~~had~~ welcomed the teacher she was our English teacher. She inspired me to study English more and more. She was so sweet and kind. After some time it was hometime everyone packed their bags and lined up to go to the bus. This was my first day of school. My first day of school was wonderful and beautiful and I loved it!!

## The present (& future) of waste & its management

"The waste products on Earth are also the human in this expanded spectral sense. One's garbage doesn't just go 'away' it goes somewhere else" - Timothy Morton.

How much waste do you throw everyday? You may think it's a small amount but all the trash you throw, every single piece, impacts the earth. All the trash we throw causes environmental problems that affect us everyday. Now, with that being said what are we doing to manage this waste.

At the moment we are closely monitoring waste day by day. We have systems to collect & sort the waste effectively. With that being said, what about the future? Well in the future we are working on turning waste to energy & making technology to analyze & control the waste we produce.

To conclude, we as humans must monitor & control our waste

& now & in the future we are slowly improving our tools & technology to help control, segregate & reuse waste day by day. Improving our earth slowly but surely.

# The Proud Rose

Once upon a time, in a desert far away, there was a rose who was so proud of her beautiful looks. Her only complaint was growing next to an ugly cactus.

Every day the beautiful rose would insult and mock the cactus on his looks, all while the cactus remained quiet. All the other plants nearby tried to make the rose see sense, but she was too swayed by her own looks.

One scorching summer, the desert became dry, and there was no water left for the plants. The rose quickly began to wilt. Her beautiful petals dried up, losing their lush colour.

Looking to the cactus, she was a sparrow dip his beak into the cactus to drink some water. Though ashamed, the rose asked the cactus if she could have some water. The kind cactus readily agreed, helping them both through the tough summer, as friends.

The Moral:-

Never judge anyone by the way they look.

The moon was at its brightest, the wolves were howling till dusk, the city of Zon was quiet having eerie silence. It was the perfect time for villainy to occur. The 70<sup>th</sup> street of Zon was blaring with police lights and ambulance vans. It seems that the federal orphanage of Zon was kidnapped. The entire building was empty. Blood was splattered on the floor. Soft toys were ripped and cotton was all over the floor. The police couldn't investigate further as it was too disturbing for them. When the authorities withdrew the case the superheroes of Zon silently took in action. The team consisted of Black Widow, Wonder Woman, Ms. Marvel, Scarlet witch and Valkery take in action. They came to find out the orphans were kidnapped by billionaire of Zon = Steve harvey, he was kidnapping the poor children using them as labourers for his wood furniture scientific factory. So all heroes get in action, sneaking into the factory and getting the children back but Steve gets hold of one child. The heroes were getting distracted by the radiation losing their powers. Steve gets them by hypnotizing them in chambers forever. While the childrens escape the superheroes didn't. The child was caught by Steve gets powers as he is Shazam.

## The Wrong Decision

It was supposed to be a fun night. A group of friends decided to spend Halloween in an old mansion that was said to be haunted. They thought it would be a chance to test their courage and have some fun, but little did they know what was gonna happen.

The mansion was located on a hill, surrounded by a thick forest. It looked like something out of a horror novel. The friends entered with flashlights, sleeping bags, snacks and a spirit game.

The mansion had many rooms. The grand hall is where the ~~the~~ friends decided to play the game. They opened the ~~the~~ board and placed the pieces. The eldest one Harman asked the board if anyone was with them, the ghost replied, "Yes". Everyone got scared. The youngest thought of it like a prank and asked why the ghost was there? The ghost replied, "Murder".

After hearing this everyone was asking questions to one <sup>another</sup> but then the board <sup>or</sup> started moving and showed the word who murdered him; <sup>^</sup> There was silence, everyone was looking at a no faced twisted <sup>arms</sup> creature that gave a ~~horry~~ horrifying vibe. Everyone ran in different directions. The ~~ghost~~ mysterious creature killed them one by one slicing their necks. ~~off~~. The creature used their heads as cake and screamed "Happy Halloween".

## Lucy The Mythical Dragon

My name is Jake. I am ~~an~~ a legend. My <sup>partner</sup> in battle is a mythical dragon! Her name helps me in battle, she fights furiously. She never quits. Her body is big, ~~colorful~~ colorful. No one can defeat her. She is from a place ~~where~~ which ~~no~~ no one knows, Gylomania. Gylor for strong people. Her people allowed me to get in and showed me their ways. They ~~are~~ are different, fight different and even drink different. There were a few people ~~that~~ who she fly and talk in their language. It took me a long time to learn the language but luckily English and ~~she~~ spoke it. Lucy's relatives were very colourful, strong and smart. ~~the~~ Lucy of the king and ~~of~~ Queen of the land. Lucy ~~grew~~ grew around people who only knew English around her spoke English, so she ~~also~~ also learned it but then she had to learn her language called Lymperkeen. Lucy got her ~~best~~ beauty and smartness from her mother but got her courage from her father. Lucy is a great <sup>partner</sup> in battle. She has blue beautiful eyes while everyone in her kind had green or pink eyes. The battle where me and ~~to~~ Lucy struggled against the powerful people of Grombagia. They were stronger ~~and~~ and more populated. We Lucy said "This is going to be tough", then we ~~to~~ ran towards them, Lucy and me did our unique battle ~~our~~ and me did our most powerful hit. Lucy <sup>n</sup> picked me up and spined me around

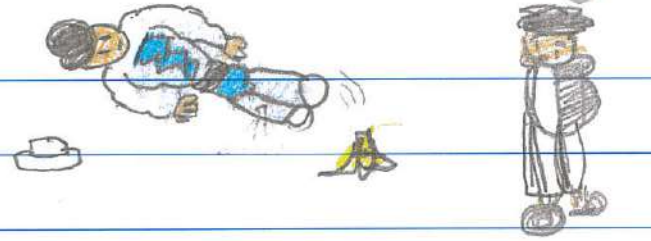

most of us were so tired that our limbs ~~are~~ could fall off. I called everyone from Gylomania to come and fight. Before we charged ~~the~~ the king said "We need to fight all we can. This might be the last fight we do so give it your all". Then everyone charged and fought like it was ~~the~~ going to be the end of the world. Unfortunately this battle was the last one for ~~me~~ me and Lucy. The word about our battle spread across the world so no one even tried to fight anywhere near us. Then me and Lucy went on a forever vacation. We relaxed so much that now we feel like to fight but can't because of our age. But we did teach some people who wanted to fight and keep the world safe.

## An Unfathomable Victory

Barry, a renowned superhero, always spoke in reverent tones, is one of a kind. He isn't the sharpest in the shed but he manages to win in the most funniest scenarios. He is so clumsy, but lucky. There was <sup>a</sup> ~~one~~ time where he won in the most incomprehensible way that no one has seen. Let me regale you on that incident.

Barry was walking down the road until he tumbled on some boxes. His face fell flat on the road like a pancake. When he got up, he found himself in a secret lair belonging to his arch-nemesis'. Some of his arch-nemesis' allies found him. He was ready to fight and lunged at them until he slipped on a banana peel. He slipped and fell on a button which squished them together. He got up and invaded their base. It was huge and bright and there he saw it. The Ray of Souls. It was a weapon that can demolish anything standing in its path.

and there he was, 'Reside'. The mastermind behind it and the greatest foe of Barry. They were about to fight. It was going to be a remarkable battle until he slipped on the floor. Reside was silent and cackled. Barry got up and they were about to fight for the second time. Suddenly, a box flew out of thin air and hit Barry on the head. This is how you would ~~think~~ have thought about the ending. But, in reality, the box hit Barry and was fired at Reside. He got hit and touched the button of the weapon. Barry got out but Reside was absolutely obliterated. It was so funny even I laughed. Now you see how Barry is famous because of his clumsiness.

# Partition - Endings

I was informed that a particular 'Harbhajan Singh' wished to meet me, I was confused, why did an unknown man want to meet me? Nonetheless, I decided to visit him because a little adventure would never hurt. A few days later I went to their estate. It was a huge plot of land mostly covered in lush (and rather overgrown grass) plants. I walked clumsily through the grass adorned with small wildflowers of all sorts of pastel shades. When I reached their small yet comfortable house at the far end of the land, a humble lady greeted me. She announced, "He's here! Come quick!" She seated me in a living room with all sorts of traditional furniture. After a calm five minutes or so a man walks in, he seemed old and wise. He explained that I was supposedly his son that they'd lost in the communal riots. I listened very little to what he said. My eyes were all over the wall, such joy in those pictures, none of which was shown in my other childhood pictures. These were my parents. This is where I belonged.

# AN INTERVIEW

## A Day With Mr. Imagination

er (INT): Ladies and gentlemen, today we have a very  
st with us, someone who has been part of countless childhoods  
s and mischief. Please welcome our guest, Mr. Imagination!

agination (MI): Thank you for having me here! It's great to

Mr. Imagination, can you tell our readers how you came into  
the world?

aintly! The limitless imagination of a young child gave birth to me  
show up whenever this kid needed a friend, a playmate, or  
someone to chat to. I'm here a little excitement to their world.

er sounds fantastic. Describe your appearance for us, please.

mean, I don't look the same all the time. I can be whatever  
my friend wants me to be. I can be a courageous knight, a talking  
animal, or even an evil fairy depending on the situation. Everything

MI: My days are really active. I participate in my friend's adventures, whether they involve investigating mysteries, travelling to mythical lands, or simply having a tea party with stuffed animals. I'm there to help and inspire them in their artistic endeavors.

INT: Do you ever encounter difficulties playing the part of an imaginary friend?

MI: Well, as my friend grows up and is independent of me, it can be a little lonely at times. But I am aware that it is a normal aspect of aging. I'm just grateful to have shared in their early years.

INT: That's very touching. Do you have any favourite memories or adventures that stand out?

MI: Oh, there are so many! However, one of my favourite was sailing the seven seas with a pal and coming across a buried hoard of chocolate coins. It was a delightful journey.

INT: What a fantastically enjoyable adventure! What last words of wisdom do you have for young readers who may want to make their own imaginary friend?

MI: My recommendation is to let your creativity soar!

INT: Thank you Mr. Imagination.

MI: Thankyou for having me!

### 'A World without nature' Article

A World without nature is a scary thought to some. It gives the idea of a World with nothing at all. No life, No animals and No plants. It's truly a night-mare. A Barren World with nothing at all is what our world would be without nature. Nature is essential to life. It gives us food to ~~eat~~ eat, Water to drink and Air to breath. Sadly, This may be the destiny of our world if we continue to pollute it at the current rate. Such a world with nothing more than a pebble in our vast universe. We must protect the blessing we have that is life. A barren world would have be empty, only grey dust covering the surface, A deafening Silence and an Overwhelming sense of loneliness. That is why we must try, try to save our home from a fate like this.

Arcti Article

A world without nature

one waking up one day to a world without nature. There are no clouds or  
to be seen in the dismal, gray sky. The vibrant-enlivening aroma of  
flowers and trees is absent, leaving the air dense and stagnant. Without any  
vegetation, or insects, the ground is lifeless and desolate. It's a dark, dreary  
environment that seems to be lacking something essential. The absence of nature  
makes the world a very different place.

Without plants and trees, there would be no oxygen produced, which would result  
in a dramatic drop in air quality. Given that breathing in dirty air can result  
in respiratory issues and even death, this would have a terrible impact on people.  
Lack of vegetation would also result in a decline in biodiversity, which  
could cause the extinction of several animals and insects.

There would be no natural resources to support human life in a world without  
nature. There will be no wood to build houses, no fruits and vegetables to eat,  
no water to drink. The oceans will be devoid of fish and other marine life.  
This could result in a global food shortage as well as increased poverty and

The disappearance of nature would also ~~simply~~ imply the absence of natural  
beauty. There are no magnificent mountains or rolling hills, no gleaming rivers or tumbling  
waterfalls. Without the wonder and amazement that nature generates, the world would  
be a dreary and lifeless place.

Dear Diary,

If the Earth could ~~talk~~ talk, it would say how much pain it would be in because we ~~pollute it~~ cause pollution, cut down trees, and plants, cause soil erosion and damage the earth. The earth is slowly becoming a worse place because of all the things we do to it. If we don't fix our mistakes the earth will soon be inhabitable and humans will be extinct. We need to start planting more trees and plants, become eco-friendly and lowering pollution from factories. We need to start caring for the earth more and make it a better place.

Today is the day I would like to speak for our Earth. It would say, "How could you ~~gas~~ label my creations as a negative or positive thing, I am sure what happens to you is your own fate, please don't criticize my creations. Secondly, I can't believe that you are living on me and are determined to destroy me only! Title: The lone survivor

(Written from the point of view of Lawrence Anthony)

(Environmentalist, conservationist, and remarkable man)

Illegal belt action rifles, shotguns and solemn faces. This was all the poachers had, all this show, just for the gold they called ivory, with a slightly higher amount of keratin than their fingernails on the hand that pulls the trigger on such ginormous, majestic creatures of Africa.

(Northern white.

Rhinos, and just the last few of them, roaming the seemingly never-ending plains of Kenya. The last few, that were so coldly killed for the horn that existed on their noses. They were bred and born in captivity, protected and loved by so many rangers, unlike the poachers. I have spent the last decade of my life ~~and~~ here, serving to these animals and protecting them from this war-lavaged district of this immense continent. My first knowledge of these beautiful beasts ~~was~~ came from a journalist, after that, I know in my heart of hearts that I would devote ~~all~~ all my time and effort in saving them.

~~Before I came to~~ Sometimes I doubt my efforts, although they brought awareness on these rare subspecies, what would it matter? There was only one last Rhinoceros left after we bid farewell to the 45-year old Sudan, also being the last Male Northern White Rhinoceros. But on rethinking, I realize I did more than ~~average~~ the average person, and that my efforts are significant & valid. I have managed to secure agreements of various governments in the area, brokered a peace treaty with the LRA in safe conduct for rescue efforts and most importantly, held such a remarkable story that will surely inspire others. For the mighty rhinos, always.

# The Lamp of Wonder!

-The Journey Awaits...-

{There was a sudden flash and ... POOF! She was gone. }

A few days ago...

“Annabeth, get ready. We're going to the decoration store to buy some decorations for our new house!” shouted Annabeth's mother, Nicole. “Yes, mother!” replied Annabeth. Annabeth ran to her closet and picked out a white floral dress. “Ahh, wonderful! Now, what hairstyle do I tie?” Annabeth asked herself as she put on her dress. Soon enough, Annabeth tied a dutch braid with her coffee-brown hair. “Mom, I'm ready! We can go now!” Annabeth and her parents bought a few items from the decoration store. Annabeth bought a wall-hanging clock, a few paintings and a bedside lamp for herself. Her favorite of all those items was definitely the lamp. She felt that there was something deeply magical about it. The lamp, when in a dark room, projects the image of a dangerous

pirate ship. That night, Annabeth experienced something truly wonderful. She turned off the lights in her room and turned on her pirate-ship-bed-side lamp. Annabeth got into bed, all cozy. Then, there was a sudden flash and... Poof! She was gone.]

\* \* \* \*

Annabeth opened her eyes. "Ouch, ow! Oh, w-w-where am I?" To her surprise, Annabeth found herself on a pirate ship. She was now wearing a black bandana on her forehead and some muddy boots on her feet. She wore a red dress with puffy, white sleeves and a black belt with a golden, rectangular buckle. She also wore a black apron with a white lace around it. "Oh, where am I and... What am I doing here?!"

Annabeth looked around. She spotted a small island just a few miles away. There were seagulls soaring above the island. Annabeth thought the ship was empty so she walked towards the steering-wheel. "Ye thar! Keep yer hands off me precious!" Said a n unfamiliar voice. "Aaah!" Annabeth screamed with astonishment and fear. She turned around to find herself looking at a real-life pirate! "Ahoy thar, dear poppet... ye seem t'be lost." Said the pirate - 'poppet?' Annabeth asked herself. 'oh right, he's a pirate!' "Ahoy there-!"

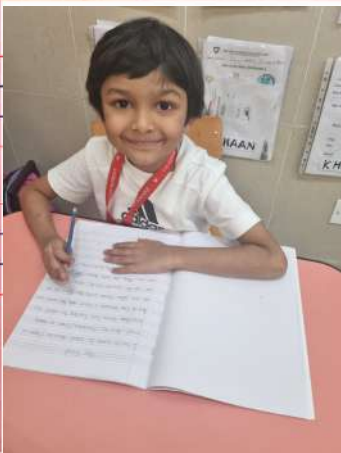

"Sorry, that uh... pirate?" Annabeth tried speaking pirate.  
"Har, har, har... its aye, me hearty. Wha'be yer name?"  
The pirate laughed. "Me name be Annabeth. Yours?" "Me  
name be cap'n Trottegro Deeb blue. How'd ye get here,"  
asked Captain Trottegro. "I, uh - me got poofed by a lamp  
here..." "Har, har, har! A lamp? Ye've got t'be kiddin'!"  
"Har, har, har!" said Captain Trottegro. "No-Nay, I'm serious!"  
replied Annabeth. So Annabeth narrated her story to Capta  
Deeb blue. "Well then ye must be brought here for a  
reason." "Me-not-know-why-though..." replied Annabeth.  
Suddenly, there was a large BOOM. The ship was under  
attack! BOOM! THAR! WHACK! WHAM! "Who's they?"  
asked Annabeth. "Shiver me timbers! It must be cap'n  
Rayolder 'n his troops! Ye see, I've had a lot o' fight  
with that scallywag. Well, no time t'waste! We've got a  
race to run!" said Trottegro. "No-NAY! We, er... you,  
have a problem to resolve but violence is not the answer."  
Soon Annabeth got Captain Rayolder ~~and~~ <sup>and</sup> Captain Trottegro  
together, and turns out, there was no real fight. All that had  
happened was that Captain Trottegro found Captain Rayolder's  
parrot and Rayolder thought that Trottegro had stolen it.  
After the fight was resolved, Annabeth got 'poofed' back  
home and Annabeth's 'truly magical' lamp would take her  
on an adventure every night. Remember; -1

Violence is never the answer

## My School

I love to come to school because I learn so much from my teachers. I learn so many interesting things too. Coming to school by bus is fun because I travel with Neel and I also see my other friends on the bus. When we go for our PE class, we first do some warm up exercises. Then we take turns and play with our friends. It is fun to dance too. I have lots of things to draw in my Arts and crafts class. I love to go to school everyday.

# LITTLE LIGHT

Oh shining in the sky firefly  
so bright flying like a light,  
with fire so bright,  
with all its might it shines  
at night,  
will never go out,  
instead it will keep it's light.

# THE LOVE FOR MY SCHOOL

(Poem)

Dear friends, School is fun,

the story has just begun.

Learning new things everyday,

I wonder what we are going to learn  
today.

All my friends are very cool,

and that's the reason I love to  
go to school.

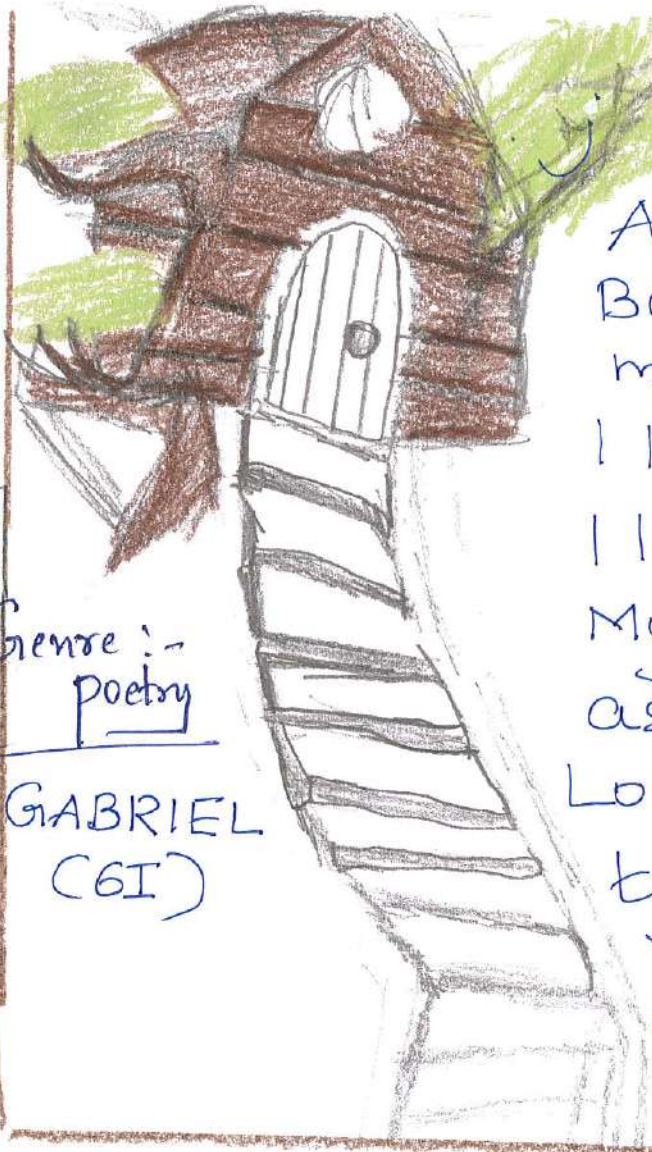

My teachers try in every possible  
way,

To motivate and inspire me day after day.

Though I was never really — fond of books,

They help me know how the world looks.

## My Tree house

A special secret place  
Between my school and  
my house,

I love to hide,

I love to climb

My dreams all swayed  
as I sit on the top!

Lovely I, Lovely my  
tree house!

You are my friend  
and Comrade!

Nature's Love

Poetry

In a world high up above  
There lies a mighty dove  
In a world beneath the sea  
There are fishes who are free  
The land that we stand on  
Has innumerable things to express  
But the only thing we lend an ear to,  
Is the benefit of our avarice  
Nature has everything to give  
for us to live  
But our acquisitive nature  
has given us danger.  
To live in a world of peace  
We must abolish our greed.

## Dahlia's, Oh so Sweet

That evening as the wind blew through my hair,  
I closed my eyes and sighed with despair.

I picked up a dahlia  
Smell as sweet as chocolates, ah!

The dahlia cause devils to decay  
They make me sag;

Dahlia's oh so sweet,  
I find them really neat.

I love them, more than the sky,  
They are truly, the apples of my eye"

# "The Staircase of Life"

In the corners of our existence, it stands tall,  
A staircase that we all must climb, big or small.  
With steps of wisdom, worn smooth with age,  
It's a journey we embark on from an early age.

Each step we take, a lesson we learn,  
A chance to grow, to evolve, to discern  
The staircase of life, winding and low,  
Challenges us with choices, right and wrong.

The first steps of innocence, so tender and sweet,  
Lead us to a world of wonders at our feet.  
As we ascend, we stumble and fall,  
But resilience within us, we heed the call.

The Middle steps may seem a daunting task  
With dreams to chase and questions to ask,  
Yet with courage and hope, we carry on,  
Knowing that each climb makes us strong.

Higher we climb, toward the zenith above,  
The staircase of life, a testament to love.  
We meet friends and mentors along the way,  
Whose presence brightens even the darkest way.

At last, we reach the top, our journey complete.  
Looking back, the memories all bittersweet.  
The staircase of life, a tale to be told,  
Of adventures and stories, both young and old.

So, cherish each step, every rise and fall,  
For life's grand staircase unites us all.  
And as we climb, let's do so with grace,  
Embracing the challenges we all must face.

A World without nature is a scary thought to some. It gives the idea of a World with nothing at all. No life, No animals and No plants. Its truly a night-mare. A Barren World with nothing at all is what our world would be without nature. Nature is essential to life. It gives us food to ~~the~~ eat, Water to drink and Air to breath. Sadly, This may be the destiny of of our world if we continue to pollute it at the current rate. Such a world with nothing more than a pebble in our vast universe. We must protect the blessing we have that is life. A barren world would ~~have~~ be empty, only grey dust covering the surface, A deafening Silence and an Overwhelming sense of loneliness. That is why we must try, try to save our home from a fate like this.

I am earth, the ground beneath your feet,  
The foundation for all that you meet,  
From mountains high to valleys low,  
I am the land where life does grow

My rivers flow, my oceans roar,  
I am the planet that you adore,  
My forests beneath, my deserts parch,  
I am the world that you must march.

Yet I am fragile, delicate and rare,  
A gift to cherish, to love and share.  
My air is thin, my waters strained,  
I am the earth that must be sustained

So heed my call, on human race,  
Protect my beauty, my sacred place.  
For I am the earth, the home you seek,  
And without me, your future's bleak.

In this black soundless expanse, I recite my poem, I float  
I sense the fire against the rusted rings of my throat  
Burning my vulnerable landscapes  
And my elements too are in a scrape  
For they're tarnished with flakes and blades of soot

Like an abandoned cemetery, I rot  
I was once bejeweled, but here we are, stripped by a boycott  
A boycott of my right to just be  
For I've been stained with the sap of those killed numbly  
And that's why I write this poem,  
Because no death deserves a ~~reckless~~ pathetic obituary

# مشروع عربي متكامل

مرحبًا، أسمى هانا اليوم سأُتحدث  
عن كيف يمكن للأشطة التي تُشجعنا  
من هذا المشروع أن تساعدني في  
مسيرتي المهنية المستقبلية. ستكون مسيرتي  
المهنية المستقبلية حيث يمكنني  
البحث عن الموضوعات التي يمكنني  
تعليمها الأطفال، يمكن الفن الثاني أن يساعد  
ني في مسيرتي المهنية المستقبلية حيث  
يمكنني تقديم الأنشطة والمهام باستخدام  
الفن الثالث، أخيرًا - يمكن أن تساعدني هذه  
القوة في مسيرتي المهنية المستقبلية  
فيما يتعلق بالتدريس، وتحتاج إلى معرفة  
كيفية تقييم المشاريع المدرسية، أخيرًا مفيدة  
لمهنة الطلاب لأن الطلاب يمكنهم استخدام  
التخطيط المناسب وتحتسب مهارات البحث

## مقدمة

ما هي الأنشطة التي قمت بها كجزء  
من هذا المشروع و التي ستساعدهك  
في حياتك المهنية المستقبلية؟ اعط  
أسباباً.

لقد استمتعت بالقيام بمشروع الذكاء الاصطناعي  
على التعليم. أثناء إجراء البحث، تعلمت أن  
هناك الكثير من الفرص للوظائف في مجال الذكاء  
الاصطناعي ليس سحراً؛ إنها مجرد رياضيات.  
ينم تنفيذ الأفكار الكامنة وراء آلات التفكير و  
إمكانية تقليد السلوك البشري بمساعدة المفاهيم  
الرياضية. لذا، في المستقبل، سيكون كل شيء  
تقريباً مرتبطاً بالذكاء الاصطناعي. سيكون  
تعلّم الرياضيات خياراً جيداً حيث سيكون  
هناك المزيد من فرص العمل في مجال الذكاء  
الاصطناعي في المستقبل مع الذكاء  
الاصطناعي يمكننا تصميم أشياء  
جديدة وقريبة من نوعها. سيساعد الذكاء  
الاصطناعي في الرياضيات في التعليم  
المستقبلي الطلاب على تعلم أو فهم  
المزيد من المفاهيم بسهولة وأسرع.  
سيكون الطلاب أكثر تنافساً في تعلم  
المفاهيم، لأن استخدام الذكاء الاصطناعي  
سيكون أكثر متعة وطريقة سهلة للتعلم.  
يمكننا أيضاً تعزيز مهارات التعلم لدينا مثل مهارة  
الاستماع و مهارة القراءة و مهارة الكتابة من خلال

كُلُّ عَامٍ وَأَنْتِ الْأَمَانُ

الْحَيَاتِ. كُلُّ عَامٍ وَأَنْتِ

الْخَيْرُ كُلُّهُ. أَحَبُّكَ أَهْلُ

وَأَتَمُّنُ أَنْ أَكُونَ كَمَا تَكُونُ  
بِـ دَائِمًا.

ما الأنشطة التي  
قامت بها كجزء من  
هذا المشروع  
ستساعدك في  
حياتك المهنية  
المستقبلية؟

اسم: أنوشي  
صفحة: الخامس

يدور مشروع المتكامل حول كيف يمكن  
للذكاء الاصطناعي تحسين جودة تعليمنا  
والذكاء الاصطناعي هو مستقبل تعليمنا و  
هو يمكن العقول من الإبداع.

يمكن أن يساعدني البحث الذي  
أجريته للعثور على أدلة ونتائج حول هذا  
الموضوع في مسيرتي المهنية المستقبلية.

تتطلب العديد من الوظائف معرفة أساسية  
للكمبيوتر مثل البريد الإلكتروني و اللماعة  
عبر الإنترنت. يمكن  أيمن  
اللماعة عبر الإنترنت. يمكن امتلاك هذه

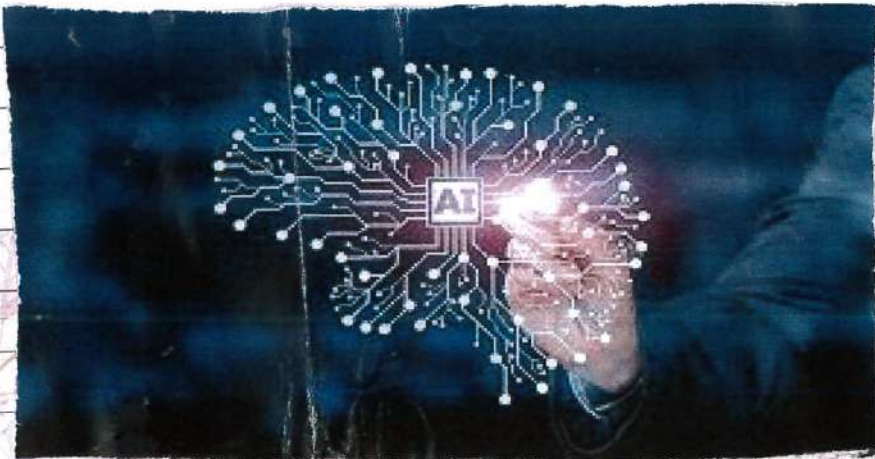

المهارات إلى زيادة فرص العمل والفرص  
المتنامة. سيساعدني هذا الأهمية الأساسية  
للكمبيوتر أيضًا في تحقيق المهام بسهولة  
وكفاءة سيساعدني البحث الذي أجريته حول  
الذكاء الاصطناعي في مسيرتي المهنية في

الذكاء الاصطناعي.

لقد تعلمت أيضا العديد من المهارات الناعمة  
أثناء إكمال هذا المشروع مثل التعاون  
والقيادة والتي ستساعدني على مشاركة  
مهاراتي . الفريدة وإيصال أفكاري إلى  
الآخرين بسهولة .

أنا سعيد بالنتائج التي توصلت إليها أثناء  
صنع المشروع التكاملي وستساعدني هذه  
المهارات في التطوير الوظيفي . لقد علمني  
هذا المشروع الكثير من المعلومات  
القيمة .

## Le droit à l'éducation

La vidéo parle d'une enfant qui se bat pour son droit à l'éducation, envers et contre tout. Elle voulait son droit à l'éducation même quand elle devait faire face à des obstacles. Elle a continué son voyage pour trouver une école pour étudier. Elle est montée sur une montagne des livres à partir de là, elle a vu une école au loin et elle est entrée dans et a retrouvé cette école son droit à l'éducation.

# अगर मुझे आविष्कार करने का मौका मिलेगा

अगर मुझे अपनी जिंदगी में कभी आविष्कार करने का मौका मिलेगा तो मैं एक ऐसे चश्मे का आविष्कार करना चाहूँगा जिससे सारे नेत्रहीन लोग, उस चश्मे का प्रयोग करके इस दुनिया को अपनी आँखों से देख सकें क्योंकि बिना आँखों के यह दुनिया एकदम बेजान और बदरंग है। जब कोई नेत्रहीन मरे बनाए हुए चश्मे से इस दुनिया के खूबसूरत नजारों को देख पाएगा तो उसके चेहरे पर जो खुशी और संतुष्टि का भाव आएगा, वह शायद शब्दों में बताया नहीं जा सकता। मेरे इस आविष्कार से मैं उन लोगों की बेजान और बदरंग दुनिया में रंग भर सकूँगा। वह लोग पह-लिखकर आगे बढ़ सकेंगे। और मैं अपने इस आविष्कार को सरकार को समर्पित करना चाहूँगा जिससे ज्यादा से ज्यादा लोग इसका लाभ उठा सकें।

धन्यवाद

# समय की रफ्तार: यादों की बहार

समय की रफ्तार में जब यादें बिखरती हैं,  
वो पलों की मिठास, वो युरिया की बातें।  
जैसे नदी के पानी की धारा बहती है,  
हमारे जीवन का सफर, यादों की मिलती बहार है।  
कभी हँसी के लम्हे, कभी गहरे दुःख के रास्ते,  
समय की छाया हमारी कहानी को बुनती है प्यार से।  
जीवन के सफर में, हर दिन एक अनमोल रत्न,  
समय की चलती धार में हमारी कहानी बसी मनाते हैं।

## रचनात्मक लेखन - चित्र वर्णन

चित्र में एक बहुत हरा-भरा मैदान है। मैदान में एक पीले रंग की बस खड़ी है। स्कूल के बच्चे पौधे लगा रहे हैं और पौधे में पानी डाल रहे हैं। बच्चों के साथ स्कूल की एक अध्यापिका भी है। आसमान बहुत नीला है। बस बच्चों का इंतजार कर रही है। यह चित्र बहुत सुंदर है।

## त्याहार और मजा

रक्षाबंधन का त्याहार भाई-बहन के प्रेम का प्रतीक है- दो भाई-बहन हैं थे। वह 20 साल से बात नहीं किए थे इसलिए नहीं की वा अलग दो गाँव लेकिन वह एक दूसरे से नाराज़ हैं, एक लड़ाई जो 20 साल से हुई थी जिसमें भाई ने बहन का बहुत बुरी तरह खूना रोकल था। उन दोनों एक-दूसरे की याद हैं, लेकिन बात नहीं करते, 20 साल बाद एक घटना घटी उनके पीछाजी की स्वास्थ्य खराब होने लगी, दोनों भाई-बहन पुरे उनके पास गए उधर उसके पीता ने उनका समझाया और उनका एक दूसरे से माफ़ी ले संगवाने, भाई-बहन का समझ आ गया की स्वास्थ्य तो बढाना था। भाई बहन ने एक दूसरे से का माफ़ किया और जन्म रक्षाबंधन मनाया।

# सबक

एक समय की बात है। एक छोटा गाँव में दो लड़के रहते थे। उनका नाम अरजुन और राम था। वह अच्छे दोस्त थे। राम और अरजुन हमेशा साथ रहते थे। हर दिन, स्कूल छोड़ने के बाद, वे एक छोटा दुकान में जाते थे। उन दोनों को वहाँ का मिठाइयाँ बहुत पसंद करते थे।

एक दिन अरजुन के पास मिठाई खरीदने के लिए पैसा नहीं था। उस दिन, अरजुन ने स्कूल जाने से पहले, अपने माँ के कमरे से पैसा चुरा लिया था। राम, जो अरजुन के साथ स्कूल जाने के लिए उसके घर के सामने इंतजार कर रहा था, ने उस घटना को देखा। जब अरजुन स्कूल के बाद दुकान गया, तो राम ने देखके दोनों के मिठाइयाँ पहले से मँगाया था। राम उस मिठाई को अरजुन के हाथ में रख कर प्यार से बोला कि, "अरजुन, तुम ने जो पैसे लिए थे, उसे अपने माँ को वापस कर दो। उनका जरूरत पड़ेगी।"

शिक्षा - सबसे बड़े सबक उन लोगों से सीखे जाते हैं जो आपके सबसे करीब हों।

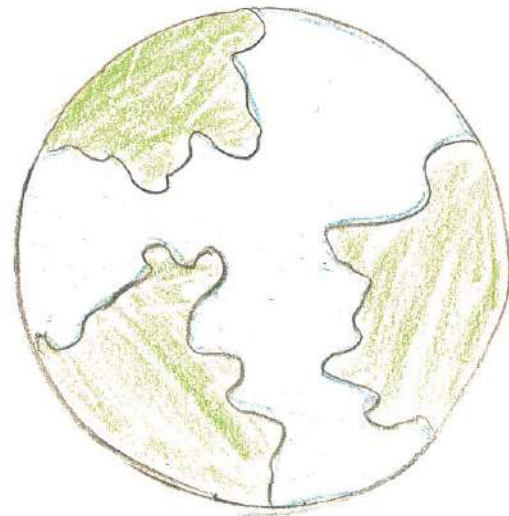

# मंगल ग्रह की सूर

मंगल ग्रह पर, एक रॉवर ने एक गूफा धरोहर का पता लगाया, जो एक झूली हुई सभ्यता की सूचना दे रहा था। पृथ्वी पर वापस, वैज्ञानिकों ने उसके रहस्यों को सुलझाने के लिए उत्सुकता से काम किया, जिससे मंगल ग्रह के लाल आकाश के नीचे एक खोया हुआ युग और उसकी शक्ति की कल्पना सामने आई।

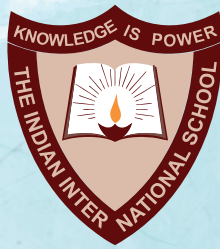

## धरती

पृथ्वी पर, विभिन्न दृष्टिकोणों में बसा एक जीवंत शहर था। उच्च इमारतों और हरियाली के बीच लोग सपने पूरे करने से रोशनी तारामंडल की भाँति चमकती रहती थी, मानवता के ह इस नीले ग्रह पर साझा अस्तित्व की पुष्टि करती हुई। रात में, पृथ्वी धीरे-धीरे घूमती घूमती रहती थी, विविध जीवों के लिए एक अद्वितीय आश्रय।
